

## MOLE DAY PROJECT

**Q:** What kind of test do chemistry students like best?

**A:** Mole-tiple choice

**Q:** How rich is Avogadro?

**A:** He's a multi-mole-ionaire.

**Q:** Which tooth did Avogadro have pulled?

**A:** One of his mole-ars

**Q:** What does Avogadro put in his hot chocolate?

**A:** Marsh-mole-ows

Create a MOLE TILE for the Mole Periodic Table.

This is the format for your Mole Tile →

1. You will be assigned an element by your teacher
2. Research your element to find out how it used in everyday life.
3. Use the information to incorporate a cartoon mole as a visual for your tile.
4. You will be creating your tile by drawing it on a sheet of paper. You will not be cutting and pasting images from your computer.
5. After completing your drawing, you will take a picture of your tile and save it as a jpeg file or scan as a pdf.
6. You will send your picture into ctls as an attachment.
7. Your teacher will make a class mole periodic table by incorporating your drawings.
8. Be creative and colorful.
